Description

Combining a superyacht feel with all the practical advantages of a yacht in this size category.

The 88 Yacht has impressive, and new to the brand, exterior lines and a sleek hardtop roof.

This yacht will stand out in any marina around the world. Powered by twin MTU 12V 2000's as standard, she accommodates eight guests and four crew in complete luxury and comfort and is capable of reaching speeds of up to 28 knots.

The 88 Yacht features Sunseeker's industry-leading 'Beach Club' concept which is accessed by dual teak staircases featuring recessed LED lighting. The 'Beach Club' transforms the area into a private outdoor sanctuary complete with innovative X-TEND™ sunbed that converts under an optional parasol. Beneath, is an overhead rain shower and plentiful stowage including dedicated lockers for two Seabobs with charging points. This is the perfect yacht for relaxing, entertaining and having fun in style.

Accommodation

The main deck is nothing short of spectacular. Inside, there is a large forward galley helping to maximize the open-plan entertaining space. It gives owners and crew an amazing amount of practical storage space, as well as a dedicated fixed breakfast bar unit with two stools, creating an additional informal dining space.

The galley has a full height premium fridge freezer and dishwasher. There is also the ability to fully close off the galley, allowing crew to move around the yacht unnoticed with access from the lower helm on the starboard side that gives the owners the chance to enjoy complete privacy.

The interior has a real feeling of opulence and clever design cues throughout that really make the yacht stand out, including diagonal stainless detailing on cabinetry and doors. The layering of textural elements and the mix of furnishings and fabrics feels timeless with a modern twist that oozes style and elegance.

This 88 Yacht has a 4 Cabin Layout for 8 guests, comprised of a spacious Master cabin, VIP cabin and a further two guest cabins, one double and one twin.
