COMFORT

PERFORMANCE, COMFORT, ELEGANCE

S/Y ALLURES is an **exceptional** 30.50m **high-performance** sailing catamaran. Built entirely in carbon fibre by Compositeworks and refitted in 2022, delivers an extraordinary sailing experience with top speeds of up to 23 knots, thanks to her state-of-the-art rotary wing mast, cuben fibre sails, and lightweight construction.

ALLURES is the only full carbon fibre catamaran of her size on the Charter market, designed for both thrill-seekers and comfort lovers. She accommodates up to 8 guests across 4 cabins, including a master suite conveniently located on the main deck. Two of the guest cabins are also convertible, offering great flexibility for families or groups. Her interior was tastefully crafted blending modern and classic elements using warm mahogany, fig tree wood, and **elegant** leather accents to create a refined yet inviting atmosphere.

Entertainment and leisure are seamlessly integrated on board, with a wide selection of water toys including water skis, snorkeling gear, paddle boards, and more. Guests can also enjoy **modern comforts** such as satellite TV, Wi-Fi, air conditioning, and a spacious tender for exploring secluded bays.

ALLURES is a true testament to design precision and expert craftsmanship, with each detail executed by leading specialists in the yachting world. Her unique combination of **performance**, **elegance**, and **comfort** features earned her a nomination at the World Superyacht Awards. Ideal for charter, ALLURES offers an exhilarating sailing experience.
